

Oxnard College Participatory Governance Committee Annual Goals

Annual goals will be set every fall by each participatory governance committee and self-evaluation of the goals will be discussed at the annual retreat. **Committees confirm and forward goals to the College Planning Council by the first October meeting.**

At the end of the academic year, committees use the Committee Self-Evaluation form to evaluate the status of their goals annually. The form must be submitted to the CPC by the end of April for the evaluation process.

The committee may wish to carry over the previous academic year's goals as well. Please identify the goals the committee would like to complete and submit to the College Planning Council.
